**We use DataMechanic
in our own workshop
and marketing**

Datamechanic is a workshop based database, developed in conjunction with many different shops, with the main criterion “**To be easy to use**”.

Comprehensive customer histories, spare parts information and good looking invoices. BAS statements done with ease and keeping control over your business is so good with DataMechanic

**Voted No.1 at the World
Aftermarket Trade Fair in
Munich, Germany, in 1996**

World Class Fuel Injection Chemicals
& Servicing & Testing Equipment.

We also conduct training Seminars and support to the Automotive Trade.

We have been involved in Fuel Injection Servicing and diagnostics for over 20 Years
